**Problem Area**

Date: 9-18-2024

Location: MP 47.4

Temporary ECDs not installed along resources per Procedures V.B.10.b. Correct within 2 days.

**Corrective Action**

On September 19, 2024, erosion control devices (straw wattles and silt fence) were installed adjacent to the resources (wetland wrid003e and waterbody srid001e) along the construction right-of-way. No sediment has been transported off the construction right-of-way into these resources.

**MP 47.40**

Date: 9/19/2024

Notes: Installed erosion control devices at MP 47.40.
